**Approach:** Either by trail to bivy at Chasm View, or to Chasm Lake, then up the North Chimney (5.4 sections, loose & wet rock!). Bivy permit must be obtained for either!

Pitches 1 & 2, and 5 & 6 can be combined with a 60m rope.

**Gear:**  
 1 set of wired nuts, including small sizes  
 several finger-sized nuts  
 1 set active cams, small to 3".

**Descent:**  
 Depends on where your bivi gear is. If at Chasm view, downclimb and rappel the N. Face cables route. If at Chasm Lake, descend the Keyhole route and follow the trail.
